Volume 20, 1989

Subject Index

Aluminium and health, dietary intake 180-185
Alzheimer's disease and aluminium intake 180-185
ANZAAS
  and government initiatives in science policy 117
  and school science (Letter) 172
  facing the future 102
Arid Period, Great Australian 89
Astronomy
  development of in Australia 198
  role of the amateur in early Australian 16
Astrophysics and evolution of Australian astronomy 198
Atmospheric changes, implications for global security 59
Australia and the Funafuti Connection. Part 2. An All Australian Assault 27
Australia Prize and the bequest of Alfred Nobel (Editorial) 170
Australian astronomy, role of amateur in early 16
Australian human colonization 149
  a reply (Letter) 173
Australian scientific instrument industry 154

Briggs, M.H., inquiry into scientific misconduct of 38

Climate change research, uncertainties in 46
Colonization of Australia 149
  a reply (Letter) 173
Computers, home use 87
Concepts in science, the universe and everything (Letter) 71
Conferences
  Australasian Wildlife Management Society 65
  The Changing Atmosphere 59
  World Conference on Engineering Education 97
Cottage industry electronics 87
Crown-of-thorns starfish 3
  Letters 71, 139
CSIRO priority setting 174-179

Drought subsidization and government policy 185-192

Ecology and genetic engineering 77-81, 193
  an ecological risk (Letter) 104
  Victorian genetic engineering law 105
Education
  and science policy 112
  in schools and ANZAAS (Letter) 172
  in schools and government science policy 112
  competition and co-operation in tertiary 138
  science begins at school (Letter) 105
Elections and science policy 123
Electronics, cottage industry 87
Environmental impact assessment 141-148
  Letters 171-172

Fisheries research
  in Australia 130-134
  management issues (Letter) 140
Fraud
  and departmental heads (Letter) 106
  product control in the truth industry 24
  short-changing the audit 40
  the Briggs inquiry 38
  thwarting fraud before submission 38
  towards guidelines on scientific academic fraud 35

Genetic engineering
  and ecology 193
  adequate guidelines are already in place 80
  an ecological risk (Letter) 104
  caution needed but bias hinders debate 81
  should be subject of public inquiry 77
  Victorial genetic engineering law 105
Government HECS 42-45
  monitoring imperative (Letter) 72
Government policy on drought subsidization 185-192
Government science policy
  and ANZAAS 117
  and CSIRO 178
  future trends 107-118
Gravity telescope in Western Australia 119-123
Great Australian Arid Period 89
Greenhouse effect
  too late for certainty 50
  and rising sea-levels 48
  uncertainties in climate change research 46

Higher Education Contribution Scheme 42-45
  monitoring imperative (Letter) 72
Human biological ethic, quest for (Letter) 2
Human colonization of Australia 149
  a reply (Letter) 173

Industry
  and marine S&T in Australia 126
  and science policy 112
  scientific instruments 154
Information needs of small enterprises 93

information needs (Letter) 172

Law
Victorian genetic engineering law (Letter) 105
Victorian Water Bill 163

Marine science
May Statement just the start (Letter) 139
and technology and industry in Australia 126
Mathematics teaching in Australia
counted or countered? 85
how well does mathematics count? 82
Meteorology from space 7

New Zealand S&T 73-77
a reply (Letter) 103

Orange roughy
fisheries management (Letter) 140
research in Australia 130-134
Ozone depletion in the tropics 148

Postgraduate tax
contribution too valuable to tax 42-45
monitoring imperative (Letter) 72
Prizes for scientific achievement (Editorial) 170
Product control in the truth industry 24
Pulping industry in Australia 195

R&D
150% tax incentive scheme and job creation 86
a manifesto for the times 54
Commonwealth support of 55
research in Australia's private sector 52
Research in Australia's private sector, why it needs to be different 52
Research in superconductivity in Australia 157
Research, fisheries, management issues 130-134

S&T
in Australian marine industry 126
in New Zealand, a reply (Letter) 103
in New Zealand, government on track 75
in New Zealand, is there a policy? 73
in New Zealand, STAC initiatives and science policy 75
what is the Commonwealth really doing? (Letter) 72
Satellite meteorology 7
School science education and government science policy 112
Science
and environmental impact assessment 141-148
and government policy in Australia 107-118
Science education
and ANZAAS (Letter) 172
begins at school (Letter) 105
is it really necessary? (Editorial) 34
Science policy
and CSIRO 178
and elections 123
and science education in schools 112
Scientific fraud
and departmental heads (Letter) 106
guidelines to reduce academic fraud 35
product control in the truth industry 24
short-changing the audit 40
the Briggs enquiry 38
thwarting fraud before submission 38
Scientific instrument industry in Australia 154
Scientific statistics 14
Sea level changes and the greenhouse debate 48
Space and meteorology 7
Starfish control, crown-of-thorns 3
Letters 71, 139
Statistics in science 14
Superconductivity research in Australia 157

Tax incentives, job creation in R&D 86
Taxing postgraduates
contribution too valuable to tax 42
government policy contradictory 45
monitoring imperative (Letter) 72
too soon to judge 44
Teaching of mathematics in Australia 82-85
Telescope, gravity, in Western Australia 119-123
Tertiary education, competition and co-operation in 138
Truth control in the sciences 26

Ultraviolet radiation in the tropics 148
